- Power Point, Microsoft Excel, Microsoft Word
- Knowledge about using softwares like RevMan 5.4, Statdirect and QI Macros excel software.

CONFERENCES/ WEBINARS

- Attended 2-Day research development program on “Research writing, ethics and research integrity”.
- Attended “Introduction to clinical research and careers” organized by ISCR.
- Attended 2-Day workshop on “Systematic Review and Meta-Analysis in biomedical Research.

RESEARCH AND DISSERTATION TOPIC

Comparative efficacy of Ferrous Carboxymaltose and Iron Sucrose in Pregnancy Induced Anaemia- Systematic Review and Meta-Analysis.

- **Aim:** Development of various plot such as Forest plot, funnel plot, Box and Bubble plot.
- **Objective:** The primary goal of the current study was to understand the efficacy of Ferrous Carboxymaltose better than Iron Sucrose through statistical analysis.
- **Need:** Anaemia is one of the leading causes of death in pregnant women and is more prevalent in developing countries like India. So, there are various salts like FCM and IS but FCM proves to more efficacious but still it is a questionable salt to be used on a wider scale. Therefore through Meta-analysis by developing various plots like forest, funnel, box and bubble plot its efficacy has been proved.
- **AREA OF INTEREST**
- Pharmacy Practice

Experience

- Asst. Professor at SSBT from 1/07/2024- till working

PERSONAL DETAILS

- Date of Birth : 26/06/1998
- Languages : English, Hindi, Marathi
- Hobbies : Travelling, Reading books. listening to music
- Contact : +91-9011996982
